Thailand Chiang Mai

Summer Session I 2018

Host University: Chiang Mai University
Application Closes: April 1, 2018
Minimum GPA: 2.5

Environmental Security
ENV/PSC, 300-level, 3 credits

- This course examines environmental security threats, their causes, outcomes, and policy responses. Study the linkages between climate change, water scarcity, and food security with human rights abuses, civil war, political unrest, and international conflict. Examine how environmental degradation and climate change threaten security, as well as mitigation and adaption strategies.
- Combine with an introductory course on Thai language.
